

BCIP at Airtel Delhi Half Marathon 19th NOV 2017

BCIP faculty members Dr Richa Rai, Dr Nidhi Kalra, Dr Davinder Kumar Gaur and Dr Priyanka Sharma, along with BPT students participated as a Physio team for the Volini RECOVERY ZONE sponsored by Volini and organised by Kinspire Sports Clinic, Mumbai, during the Airtel Delhi Half marathon.

The recovery zone allowed every participant to cool down and tackle post run fatigue if any, under professional guidance, so that the participants could get back to their regular routine at the earliest. All the volunteers had a wonderful learning experience and the Kinspire Clinic - Sports Medicine Physician, Dr Rizwan Khan and Dr Rahul Modi thanked the team personally at the closure of the event. A record 35,000 people on Sunday participated in the annual half marathon in the national Capital, which nearly ran into trouble this year because of poor air quality before the Delhi High Court allowed it to go ahead as scheduled. The Indian Medical Association had requested that the event be postponed, but the organisers said they were well-equipped to handle any medical emergency arising because of the rising pollution levels in the city.

Ethiopian athletes won both the men's and women's races in the Delhi Half Marathon's International Elites category. Berhanu Legese took the lead position seconds before reaching the finishing line in the men's race while his compatriot Almaz Ayana won the race in the women's category.

The Indian Elite Men Winners at the PD Stage of the Airtel Delhi Half Marathon, 2017 (L to R) 1st runner up G Lakshmanan, Winner Nitendra Singh Rawat 2ndrunner up Avinash Sable along with Chief Guest Ajai Puri, Director-Operations-Bharti Airtel, Puma Legend Linford Christie and Anthony Ervin-International Event Ambassador.
