The main attraction of the event Chandiwala Spring Carnival 2k17 were Inter College Folk Dance Competition and the food stalls run by our own students of BCIHMCT which have gathered a great publicity from all the colleges of the university in the previous years. Our students also participated with great zeal and volunteered in the game stalls on the event. The crowd also enjoyed the bumper house and the lucky draw was the centre of attraction. The idea of holding this event was conceived keeping in mind, the necessity to create a common platform for all the colleges all over delhi. It would allow each of them to interact freely for their mutual benefit. This event would further bring out the best of cultural skills from the budding professionals and test the knowledge of the youngsters who would be the future professional of the industry.
