

Vol. 06 | Issue 04 | October - December 2014

Editorial

Dear Readers,

I am highly privileged to present this issue of our journal . This journal seeks to embody the spirit of quest, passion of excellence & innovation to augment the richness of existing physiotherapy theories and practices.

The journal provides professionals with a forum to discuss today's challenges, identifying the philosophical and conceptual foundations of physiotherapy practice. The current issue consists of research papers, upcoming physiotherapy trends, professional opinion and comments on professional issues.

I congratulate the editorial team for their valuable efforts. I look forward to receive more research and review papers as well as technical reports, etc. for our next issue of the journal.

On behalf of this publication's colleagues and contributions, Welcome!

 Sanjeev Gupta
 Editor-in-Chief

Contents
