

Vol. 08 : 2016

## Editorial

Dear Readers,

I am highly privileged to present this issue of our journal *"The Physiotherapy Post"*. As you are aware that our journal is dedicated to publishing scholarly essays, review & research notes on all issues relevant to Physiotherapy, the journal provides professionals with a forum to discuss today's challenges, identifying the philosophical and conceptual foundations of physiotherapy practice. May I urge you to disseminate contents of this publication to all of its potential beneficiaries. The editorial board's aim is to publish significant researches which has important implications for physiotherapy. This issue bears several major changes in its editorial board and other features that are duly acknowledged in the inside front of this publication.

I may be allowed to highlight an article by M Garg, "Assessment of Hip and knee strength in subjects with unilateral Chronic Ankle Instability". The efforts & intellect invested in the endeavor is commendable.

I seek suggestions / comments regarding content, Presentation & design of this publication for its future evolution. Also I welcome contributions in the future issues of this journal in form of article/ abstracts/ reviews & advertisements etc.

I would like to thank all the editorial team members, reviewers and publication team who have helped in making this journal a possibility. We hope that the research featured here sets up many new milestones. I look forward to make this endeavor very meaningful, I am pleased to forward this issue of *"The Physiotherapy Post"* for your pleasure reading.

Sanjeev Gupta  
Editor-in-Chief
