

Vol. 05 | Issue 01 | Jan- March 2013

## Editorial

*Dear Readers,*

*I am honoured to release this issue of our prestigious journal, which is an effort to bring together significant researches and to broaden the horizon of evidence based practice. The journal provides a medium for researchers to put forth new researches and at the same time is a source of inspiration for budding "young brains" with oodles of gray matter to channelise their thinking ability and give new dimensions to it.*

*Special highlight of this issue is article by Mr. Mansukh Chander and Mr. Narkeesh Arumugam title "Effect of Gaze Stability Exercises in the Recovery of Third and Sixth Cranial Nerve Palsy: Case Report"*

*I thank authors for their contribution and also congratulate the editorial team for their efforts.*

*On behalf of this publication's colleagues & contribution Welcome!*

Sanjeev Gupta  
Editor-in-Chief

## Contents

	Comparison of Vestibular Function and Quality of Life Between Diabetic Patients with and Without Retinopathy <i>Divya Khare and Nidhi Kashyap</i>	169
