

Editorial

Dear Readers,

I am highly privileged to present a new issue of our journal "The Physiotherapy Post". The journal seeks to embody the spirit of quest, passion for excellence & innovation to augment the richness of existing physiotherapy theories & practices.

This publication also provides our young researchers a better platform for their publication in physiotherapy field. The current issue consist of research papers which provide an understanding of physiotherapy. In this issue we highlight article by Ms. Smriti Singh et. al. as special article that provides us an insight on what is the prevalence of developmental delay in children.

I thank the authors for their appreciable contribution and also congratulate the editorial team for their valuable efforts. I look forward to receive more research and review papers as well as technical reports, etc for our next issues of the journal. I hope you find this issue of "The Physiotherapy Post" interesting and useful.

On behalf of this publication's colleagues and contributors, Welcome!

Sanjeev Gupta
 Editor-in-Chief
